

TEEN DEPRESSION TREATMENT STUDY

EMORY
UNIVERSITY
SCHOOL OF
MEDICINE

WHAT'S INVOLVED?

We are interested in learning how teens' brains change in response to therapy. This study involves:

- 16 weeks of FREE therapy with an Emory clinician
- 5 MRI scans throughout treatment
- Brief surveys about your daily activities
- Compensation of up to \$1135

WHO'S ELIGIBLE?

Teens **15-17 years old** experiencing:

- Low mood
- Loss of interest/boredom
- Irritability
- Sadness
